## **„MAST vs Cora“ mit Gauthier Cora, alias MAST**

Gauthier Cora, alias MAST began to spray graffitis in the middle of the nineties. After this artistic experimentation phase on courses and other urban areas he regenerates now most different materials (canvas, cardboard, wood, plastics...) and investigates different graphic techniques. (spray, acryl painting, flash animation). He gets his inspiration from the Graffiti environment and from epochs like Kubismus and Surrealismus. Mast invents his own picture language consisting of picassoresh figures, naive painting and urban poetry. He worked already for Reef, Desperados, Ten mobile, trace tv...
